Dear Parent/Carer

RE: Year 11 Study Support

Please see below the new Study Support timetable for Year 11 students. It is expected that all Year 11 students attend these additional classes unless on occasion they are advised not to. There is significant evidence to support the importance of attending study support sessions in securing subject knowledge, gaining maximum potential, and achieving estimated grades.

Students will need to speak to their individual subject teachers to find out the location of the sessions, on the most part they are likely to be held in the classroom where they attend the lessons however students must check. These sessions will run after school on the evening shown for an hour as indicated on the timetable.
